In December 2021, Scott L. Miller (Electronics, Kyma), Alexander Kranabetter (Trumpet, Electronics) and Gloria Damijan (Toy Piano/Percussion/Objects) formed a trio exclusively for a performance at 'Alte Schmiede' Vienna, initiated by the curator of the music program Alejandro del Valle-Lattanzio. This concert was followed by a recording session a few days afterwards. Revisiting the results of this session, the idea was born to release the recorded material.

Gloria Damijan and Scott L. Miller are members of *Dilate Ensemble* (www.dilateensemble.com), formed in May 2020. Dilate Ensemble develops, rehearses, and performs their work telematically, using Miller Puckette's Netty-McNetface software to connect musicians across nine time zones over the internet.
