

TOY PIANO FEATURES - DUETS

In the series 'TOY PIANO DUETS', **Gloria Damijan** (*toy piano, percussion, sound objects*) presents five duo collaborations. Each duo create will create a concert program consisting of improvisations, as well as community and collaboration compositions.

Inherent in all these duo constellations is a deliberately chosen large field of tension in terms of sound generation, range and volume.

Based on this basic requirement, sound fusions, polyphonic sound separations, structures, and forms, inspired by the specifics of the respective instrument cluster, are explored and poured into an evening of extraordinary sound experiences.

The cellist **Laura Pudelek** will start this exceptional concert series in March.

The other dates in the series are:

20.4.2022: together with **Günther Gessert** (*Vert harmonica, Marxophone, Sensorchestra, Rebab*)

23.4.2022: together with **Michael Zacherl** (*Scivolo*)

28.5.2022: together with **Martin Gut** (*guitar*)

22.6.2022: together with **Elisabeth Kelvin** (*voice, clarinet, bass clarinet, tenor / soprano saxophone, Xaphoon, visual arts*)
